Digital Scholarship Services (DSS) Workshops

These courses are aimed at graduate students and other researchers, including under­grads, faculty, and staff. **You don't need to have any previous knowledge of the tools that will be presented at the workshop.**

**Unix Shell**
- Where: Langson Library Rm 570.
- When: November 8, 2018.
- Time: 8:30 am - 12:30 pm
- For more information and to RSVP: https://bit.ly/2p7DRCM

**Version Control with Git**
- Where: Langson Library Rm 570.
- When: November 14, 2018.
- Time: 1:00 pm - 5:00 pm
- For more information and to RSVP: https://bit.ly/2xgnsQm

**Software Carpentry Workshop: Unix, Git, and Python**
Software Carpentry aims to help researchers get their work done in less time and with less pain by teaching them basic research computing skills. This hands-on workshop will cover basic concepts and tools, including program design, version control, data management, and task automation. The course is aimed at graduate students and other researchers. You don't need to have any previous knowledge of the tools that will be presented at the workshop.

- Where: Langson Library RM 570.
- Time: 8:30 am - 4:30 pm
- For more information and to RSVP: https://bit.ly/2p7V4MH

**Requirements for workshops:**
Participants must bring a laptop with a Mac, Linux, or Windows operating system (not a tablet, Chromebook, etc.) that they have administrative privileges on.
